

AGBIZ GRAIN Mini-Symposium Jerry Maritz

“THE TRIPLE BOTTOM LINE”

- It's very easy to save energy if you just turn off all the lights," But that's not **bearable**.
- And it's not **equitable** to reduce energy costs by spending millions on a gigantic solar system.
- And if your building is a sky scraper, nor is that strategy **viable**.

We need to plan **sustainable strategies** that are
"viable, equitable, and bearable,

Baie welkom en geniet die dag
